

TESAB

8040T

TRACKED STOCKPILER

The 8040T is Tesab's newest addition to the materials handling division.

Designed to allow operators to stockpile/transfer material directly from mobile crushing and screening plants it offers the perfect solution to all your material handling needs.

It offers the flexibility and mobility needed to ensure that the stockpiling process is as fast and efficient as possible, it eliminates the use of a loader and also the double handling of materials.

The unit can also be containerized for transport, with minimal setup time, substantially reducing transport costs.

FEATURES & BENEFITS

- Hydraulic folding heading section for transport minimizing setup time.
- Hydraulically adjustable discharge height up to 11 meters.
- Hydraulically adjustable feed in height to complement crushing and screening plants.
- 4 Meter long 400mm wide tracks for superior maneuverability and stability.
- Fuel efficient Hydraulics system.
- User Friendly Hydraulic Controls.
- Feed boot Hardox liners.
- Heavy Duty Impact Bed
- 600-800 TPH @ 23°

TRACKED STOCKPILING

TESAB

1050mm (42") wide belt. Metal dust protection - Optional.

Hydraulic rear folding for transport with removable feed boot as standard.

CAT or Deutz 37kW Engine options + cast iron pumps.

High torque drive with 11.3m stockpile height & hydraulic folding/raising/lowering.

Heavy duty design for quarry market.

PERFORMANCE SPECIFICATION

* Depending on material density and set-up

Operating Rate	Stockpile Height	Stockpile Capacity	Conveyor Width	Conveyor Length
600+ TPH*	8.9m (29' 2")	1685m ³ (2203yds ³)	1000mm (40")	24.4m (80')

DIMENSION SPECIFICATION*

TRANSPORT DIMENSIONS			WORKING DIMENSIONS			
Height	Width	Length	Length	Height	Width	Weight (Est.)
2.6m (8' 3")	2.3m (7' 6")	12.2m (40')	23.5m (77' 3")	11.4m (37' 6")	2.3m (7' 7")	12,700Kg (27,998Lbs)
